

2G / 3G shutdowns worldwide planning

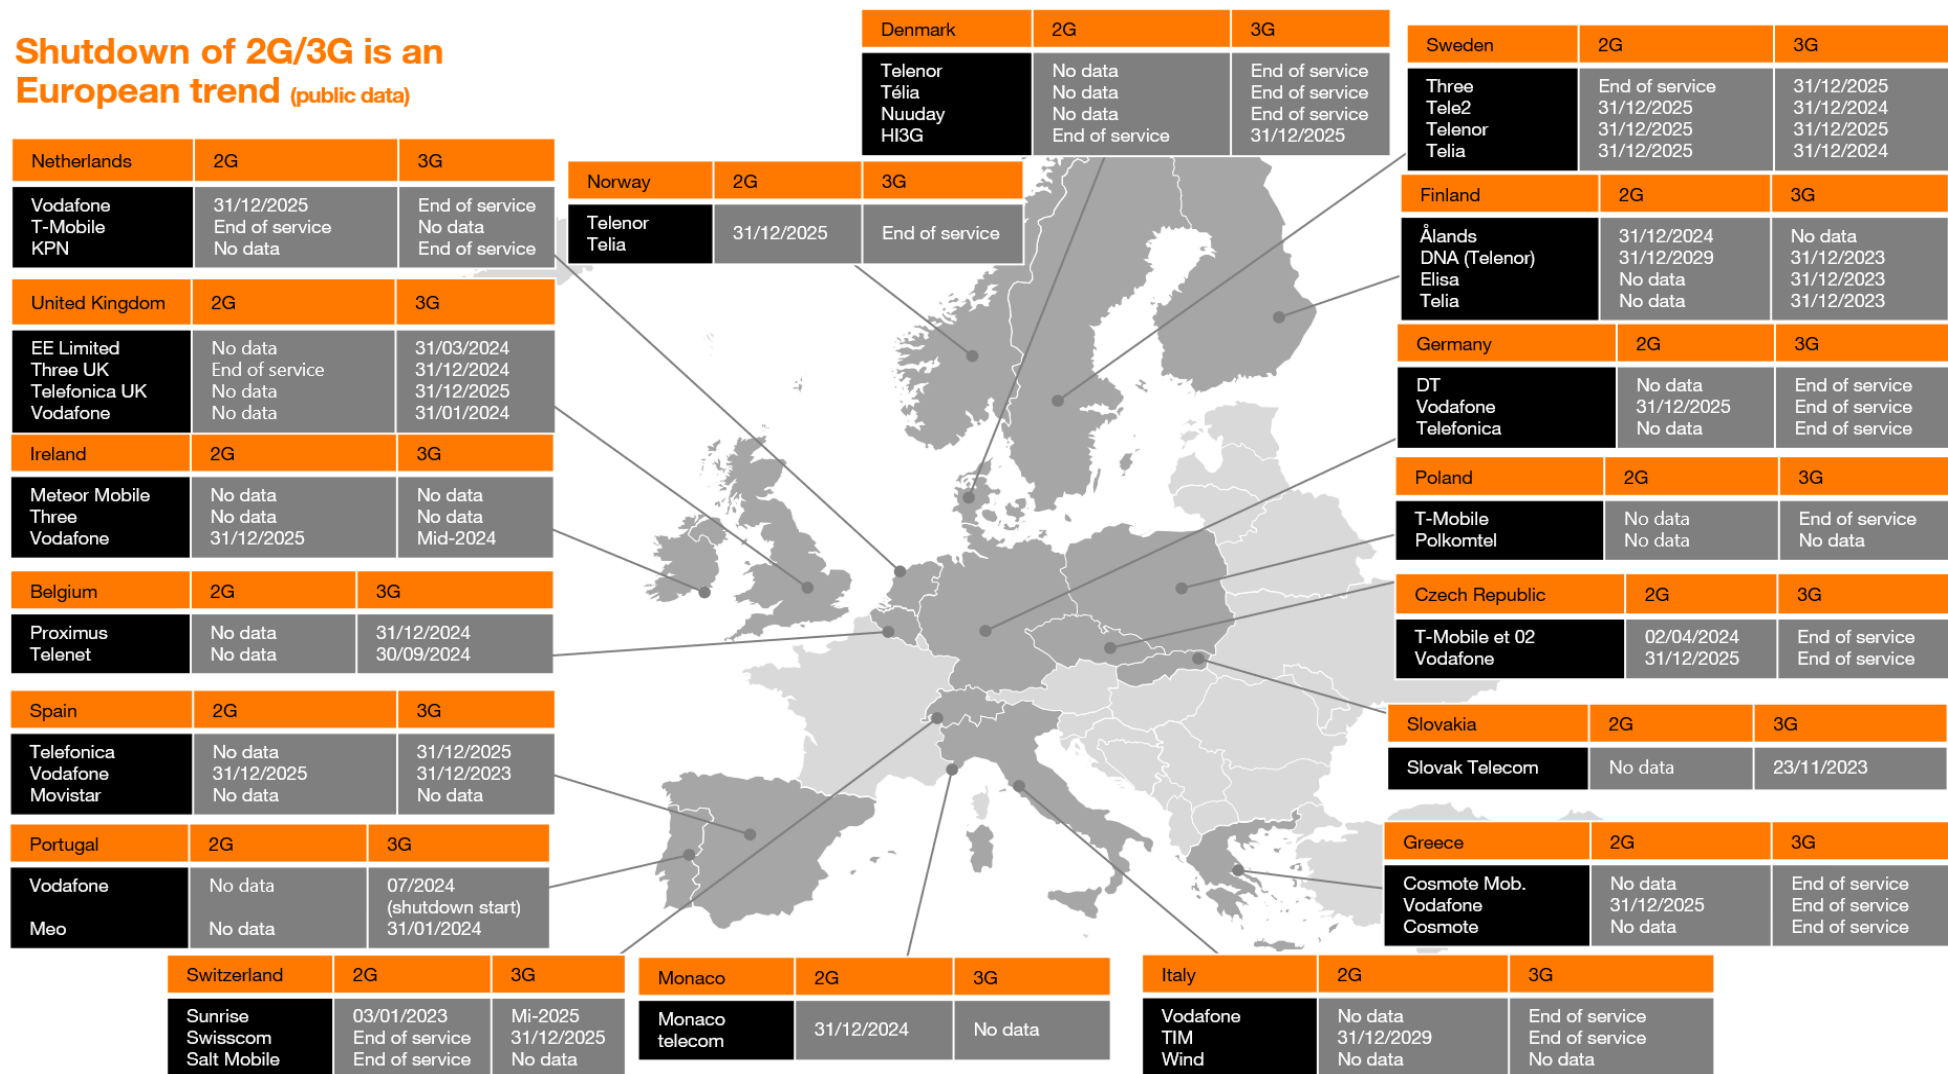

In order to make the best use of the information contained in this document, we would like to draw your attention to the following points :

- it is derived from information published on various public websites and should therefore be used for information purposes only. Orange cannot be held responsible for its accuracy;
- They are subject to change;
- This data isn't representative of information regarding available networks closure dates of French and international operators.

February 2024

Shutdown of 2G/3G is an European trend (public data)

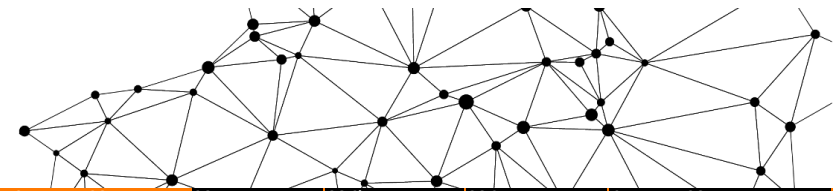

Please find details below

Caption of current situation of the technology concerned Column	
Unknown	No communication from the operator on its closure date
Planned Closure	Based on forward looking plans of the operator or regulator
No Service	2G or 3G never deployed or no longer in use
Potentially closed	The closure is supposed but not confirmed due to the potential uncertainty of the source
CDMA Only	Assimilated 2G Network (not fully compliant with the 3GPP standard)

Caption of Source of the closure date Column	
News	Information found in a press article
Operator	Information published by the operator itself
Regulator	Closure planned by an authority higher than the operator concerned (ministerial decision, administrative authority, etc.)
Non-official website	Information found in non recognized sources, needing a confirmation
Unknown	No information on closure date

2G and 3G shutdowns worldwide
